

## News of Our Boys

Thos. Kirkpatrick arrived home from the west coast last week-end on fourteen days leave.

Congratulations are due Sergt. Pilot R. H. Simmermon who received his wings at Macleod last week and is now home on leave before going east for a further course; to Corp. Lloyd Erickson of the Yorkton Air Station on receiving his two stripes, and to Albert Glasgow who recently received his air gunner's badge at Dfco, Sask.

Max Webber arrived home on leave from the Pacific coast last week-end where he completed his elementary pilot's training course.

Mike Kuzky visited his sister, Mrs. Hlynka, and family in Irma this week while on leave from the Macleod air station.

Lloyd Erickson was home on leave for two days the first of this week.

Charles DeTro was accepted recently by the R.C.A.F. for training as radio technician. Charles reports for duty on Monday, April 20th.

## Albert District News

Misses Edith and Edna Jones and brother Cyril went to Edmonton on Friday.

Mrs. Percy Miller and baby son arrived home from the hospital last week-end.

Mrs. Griffiths and baby David spent the week-end with relatives in the city.

Mr. and Mrs. Kasdorf and family have moved onto Mrs. K. Matheson's farm. Two girls, Elizabeth and Mary are attending the Albert school.

A large crowd gathered in the school house on Friday, April 10, for a farewell party in honor of Mr. and Mrs. Hay who will move to Mannville in the near future. After a pleasant social time spent at cards and games, Mr. W. D. Ramsay presented Mr. and Mrs.

## Red Cross Workers

Making a survey of our work for the first three months of 1942 one cannot help but feel gratified at the effort put forth by the Irma Red Cross, ably assisted by the V.W.s, the Alberta branch and other groups of women throughout the district.

Summing it all up the reports read as follows:

Wool quilts made and shipped, 48; sheets, 28; pillow cases, 37; for refugees, including knitting, clothing and articles donated, 125 pieces. Then the knitting report which includes the buying of yarn, washing, giving it out for knitting, checking it back in, and carefully packing it for shipment, three months work comprise 151 pairs of socks of all kinds; 45 pairs of mitts; 9 turtle neck sweaters; 25 scarves; 5 shoulder shawls and 2 Ladies Auxiliary sweaters.

Perhaps this doesn't sound like so much, but when you think it represents something like a hundred and twenty dollars spent on yarn alone, it will give you an idea of what a good work is being done by comparatively small percentage of the women of Irma and district.

The ladies of the W.A. are holding a Mother's tea, sale of home cooking and flowers Saturday afternoon, May 9th, in Hedley's hall.

Mrs. Hay also received a gift from the best wishes of the community. Hay with a handsome clock with the Albert W.I. and Arthur was presented with a pen from his school mates. Mr. and Mrs. Hay have lived in the Albert district for over twenty-five years and will be greatly missed as they have both taken an active part in community affairs.

## Council of M. D. of Wainwright No. 392 Hold Three Day Session and Transact Heavy Agenda of Business

The council of the municipal district of Wainwright No. 392 met in the office of the secretary-treasurer at Wainwright, Alberta, on Thursday, April 9th, 1942, at ten o'clock a.m.

Reeve D. Sutherland in the chair.

Councillors present as follows: Messrs. Fahner, Spencer, Strachan, Sutherland, Taylor, Dixon and Archibald.

Meeting to order.

Moved by Mr. Spencer that the agenda for the meeting as compiled be accepted and that hereafter the agenda headings be numbered. Cd.

Moved by Mr. Spencer that the pre-arranged motion No. 3 of the minutes of March 13 be corrected as follows: "That after the word 'discussed' there be inserted the following 'A vote was taken by ballot on three applications.' Carried unanimously.

Moved by Mr. Strachan that motion No. 47 of March 13, 1942, be amended by deleting the words "their present" after the word "at" where same appears in the fourth line thereof and adding to after the word "salaries" on the same line the words "of one hundred dollars per month" so that when amended said motion No. 47 shall read "that Mr. Pawsey and Mr. Burton be advised that their services will be required for at least two months from March 13, 1942, as clerks in charge of their offices as salaries of \$100.00 per month." Cd.

Moved by Mr. Strachan that the minutes of March 13, 1942, meeting as corrected and amended be approved. Cd.

Secretary-treasurer be appointed the assessor of the municipal district conforming with sec. 70 of the Municipal District Act, and duties defined as per sec. 22 s. 4 of the Assessment Act, 1938. Cd.

Moved by Mr. Strachan that the application of Mr. H. S. Burton for the position of collector for the municipal district be tabled until the July, 1942, meeting of the council. Cd.

Secretary reported the acceptance of Patriquin Johnstone and Company as auditors of the municipal district and that declaration of officials being Form C. sec. 78 of the Municipal District Act had been completed and incorporated in the minutes.

Correspondence from J. D. Adams Limited of March 7, 1942, regarding motor-grader No. 303 read, and as the repairs in question has been made, that this be filed.

Correspondence to and from the Town of Wainwright, read, regarding building and lot 19 block 5, plan 8445 V Town of Wainwright read, and on the invitation of the council Dr. Middlemass, mayor of the said town, appeared at the meeting, with regards to the municipal district's offer to purchase said building and site under the Tax Recovery Act from the town, after considerable discussion this matter was tabled until the minister of municipal affairs had been advised as to the district's contention.

Correspondence to and from the Alberta Association of Municipal Districts regarding the relationship between the enlarged districts and the Association read, noted and filed.

Moved by Mr. Spencer that the letters to and from the Canadian Indemnity Company regarding Fidelity Bonds be received and that motion No. 18 of March 13, 1942, meeting as to bonding the secretary-treasurer and assistant secretary-treasurer be rescinded, and the following inserted in place thereof "That the secretary-treasurer be bonded for \$10,000.00 and the assistant secretary-treasurer and stenographer book-keeper be bonded for \$5,000.00 each with the Canadian Indemnity Company. Cd.

Correspondence from Oil Con-

troller regarding fuel oil used in municipal district motor-graders read, and ordered filed.

Moved by Mr. Sutherland that with regards to adjusting the assets and liabilities and of that portion of the municipal district of Merton No. 451, now within the boundaries of this municipal district, that Mr. Strachan and Mr. Taylor with the secretary be delegated to deal with this matter with power to act and receive settlement in full. Cd.

Moved by Mr. Archibald that with regards to adjusting the assets and liabilities and of that portion of Grizzly Bear Municipal District No. 452, now within the boundaries of this municipal district, that Mr. Taylor and Mr. Strachan with the secretary be delegated to deal with this matter with power to act and receive settlement in full. Cd.

Moved by Mr. Sutherland that council adjourn until 1:30 o'clock p.m. Cd.

Mr. Thunell of the Viking News awaited on the council regarding his contract with the former municipal district of Battle River to supply the residents with a weekly copy of the Irma Times, after discussion.

Moved by Mr. Dickson that the secretary advise Mr. Thunell that the contract of Battle River be terminated May 13, but he will be assured a fair portion of the municipal district's advertising. Cd.

Mr. R. E. McKay representing the Canadian Ingot Iron Company waited on the council regarding 1942 requirements for metal culverts, price lists, etc., filed for reference.

Concrete Products and Supplies waited on the council regarding 1942 requirements of concrete culvert pipe and the matter of installation, price lists, etc., filed for reference.

Reeve presented a draft contract between the municipal district as employer and each member of the office staff, setting out in detail all matters pertaining to their duties, etc., for the consideration of the council as per Motion No. 39 of March 13 meeting.

Moved by Mr. Taylor that the agreement as presented between the Municipal District of Wainwright No. 392 as employers and H. U. Taylor, secretary-treasurer, Chas. Wilbraham, assistant secretary-treasurer and Miss M. E. McCluskey as stenographer book-keeper, as office staff, be received and that the reeve be empowered to sign same on behalf of the said district and signed by the said office staff and incorporated in the minutes. Cd.

Delegation consisting of Mr. J. C. Ford and Mr. G. B. Golding from Battle Heights A.F.U. meeting of April 1st waited on the council and spoke at length regarding municipal doctor and free hospitalization, same was received for consideration and the matter referred to the committee regarding uniform medical plan as per Motion 46 of March 13 meeting.

Secretary was instructed to get in touch with Mundy Map Company regarding prices etc., for office and smaller maps of the district.

Moved by Mr. Sutherland that the secretary be ordered with the Western Municipal News for the said publication, to be supplied to each councillor and municipal office, also asking for back numbers where the 1941 convention report was published.

Mr. J. Fletcher, mayor of the Village of Irma waited on the council regarding the Irma cemetery and agricultural grounds and their respective bank balances, formerly held to the credit of the M.D. Battle River in trust, asking that the said lands and monies be transferred in trust to the Village of Irma.

Moved by Mr. Archibald that the secretary be empowered to

prepare and complete transfers of that portion of the SW 34-48-9 W4 being 20 acres known as the Agricultural Grounds, and that portion of the SE 27-45-9 W4, being 4.69 acres known as the Irma Cemetery, in the name of the Village of Irma, and that the monies in trust to the M.D. of Wainwright namely Agricultural \$415.09, cemetery \$161.47 be transferred to the said village to be held in trust for aforesaid purposes. Cd.

Mr. Spencer gave a detailed report on the public works delegation which met the minister of public works of the provincial government and presented the following resolution: Resolved that we ask the provincial government to continue the building of the highway east of Wainwright from the NE corner of the NE 32-44-4 W4, south as far as the engineers think they have good road building material, thence in a southeasterly direction to a point meeting the road going directly east on the Chauvin road past the NE 21-44-4-4 and on easterly as far as the NE 23-44-2 W4 and continue on that main road to Chauvin. Carried unanimously.

Mr. Dixon reported on the matter of Alvina Klippert and moved that the application of Alvina Klippert for Mother's Allowance dated April 4, 1942, be received and a recommendation of \$40 per month be forwarded to the superintendent of child welfare. Cd.

Moved by Mr. Dixon that this council approve the action of the Edmonton committee and phone the J. D. Adams Limited acceptance of one Norton 201 motor-grader as per conditional agreement dated April 2nd, 1942. Cd.

Moved by Mr. Spencer that the accounts as approved by the finance committee and presented per list be passed for payment.

Kennedy 80.40, tabled, communicate with hospital with explanations; Wain. Mun. Hospital C. Bethge 16.75, referred back to finance committee with recommendation for payment.

Reeve Sutherland in the chair. Mr. Christie and Lotgren of the Addressograph Company awaited on the council and demonstrated the addressograph system. No action taken by council.

Councillors reported on the workable machinery in the district but requested that this matter be tabled until reports are received from committees regarding M. D. of Grizzly Bear and Merton regarding assets and liabilities.

At the request of the council Mr. A. J. McKenzie, K.C., awaited on the council and discussed with them the matters pertaining to a legal retainer.

Moved by Mr. Taylor that Mr. J. A. McKenzie K.C. be appointed legal retainer as per duties at an annual fee of \$250.00, this amount to be paid quarterly. Cd.

Secretary was instructed to write the Workmen's Compensation Board regarding coverage of the office staff on municipal business outside the municipal office. Cd.

Moved by Mr. Dixon that council adjourn until 1:30 o'clock p.m.

Moved by Mr. Sutherland that owing to the minister of municipal affairs refusing to approve the sale of the "Fish building" to the municipal district at \$1500.00 under the Tax Recovery Act that the District offer the Town of Wainwright the sum of \$2000.00 cash being the lowest amount the minister would approve the sale. Motion carried, Mr. Fahner dissenting.

Mr. C. Nicomedes, road contractor awaited the council with regards to 1942 road work program.

Moved by Mr. Spencer that the plan and specifications constituting a contract between the Muni-

CELEBRATE RELEASE FROM NAZI PRISON CAMP

## The Date Of Easter

## Depending On Moon Phases, Has A Wide Variation

Do you know off hand on what date Easter will fall this year? Unlike Christmas, which is fixed, Easter has a variation of 35 days and can come any Sunday between March 22 and April 25, depending on the phases of the moon.

Easter is the first Sunday after the full moon maturing on or near March 21. If the full moon matures on Sunday, Easter day is the Sunday following. In 1942 there are full moons on March 2 and April 1.

The April 1 date, being closest to March 21, puts Easter on the following Sunday, April 5. This fixes Ash Wednesday, beginning of Lent, Feb. 18, and Good Friday, April 3.

As Easterlike approaches, folks turn to the calendar in the hope of finding the date marked, but many modern calendars do not give the answer. Some people find out eventually when there are about six days left to buy the new spring outfit.

The term Easter in Anglo-Saxon is derived from "Ostera" the divinity of spring of the ancient Norsemen, who was welcomed in a festival of her annual return.

The forerunners of Easter was the celebration of the "Pesach" or "passing over" by the 12 tribes of Israel to commemorate the passing of the angel of the Lord over the Hebrew households when death smote the first-born of the Egyptians.

Early Christians began to observe the Jewish festivals in a new spirit because the Resurrection overshadowed all events of the past.

A controversy, raging for many centuries, began when the church at Rome observed the day on the Sunday after the Passover, marking the difference between Judaism and Christianity, while the eastern churches were reluctant to change and still held it on the same day as the Passover.

The council of Nicea in A.D. 325 tried to settle the difference by a decree that the date would be reckoned by the system used at present.

Bishops in Alexandria, the scientific centre of the world at that time, attempted to compute the Easter date for a number of years in advance, but the Alexandrian Paschal cycles were both obscure and incorrect, thus there remained wide variance in the observance of the day.

Ancient British and Celtic churches, disagreeing with the church at Rome, clung to the date of a festival, Easter, some version had abandoned, having found a more accurate calculation. After much dissension, the present system was prescribed in A.D. 689 by Theodore, Archbishop of Canterbury, when the Easter date in England into uniformity with the church at Rome.

## From Reclaimed Rubber

## Tire Produced At Toronto Factory Just In Experimental Stage

R. W. Richards, general sales manager of Goodyear Tire and Rubber Company of Canada, Ltd., said the Goodyear company had produced a tire at its new Toronto factory manufactured entirely from reclaimed rubber.

"This new tire is not being released for sale as we need more time for experimental and testing work," he said. "It is an emergency tire and its service would fall below that given by tires made of crude or synthetic rubber."

He said the tire was in the experimental stage and it was not known how far development of the experiment would progress.

## Was Fast Talker

Almost certainly no British writer achieved a larger output than Andrew Soutar, who has just died at the age of 61. By using a dictaphone he could manage 25,000 words a day. Few novelists produce more than 3,000 words a day, and many are content with that number per week.

## Opinion Of Czechoslovak

Jan Masaryk, the Czechoslovakian Foreign Minister, has something important to say about German morale: "When you have impressed upon the Nazis the fact that you are prepared for anything, no matter how long it takes, then will occur the first crack in Germany's determination to enslave the world."

## Was Not Unnatural

For many centuries, poppies have sprung up as a weed on any neglected land over areas of western Europe, so there was nothing supernatural in the appearance of the plant on battlefields of World War I.

A "volcanic plug" is plastic lava squeezed through openings in the earth's crust and there hardened.

## Has Disaster Unit

## Vancouver Fire Department Is All Ready For Bombing Raids

The fire department of Vancouver has a "Disaster Unit," a car equipped with every imaginable instrument for aid in flood and fire asphyxiation, drowning—and now that the Pacific has become a war zone—in case of bombing raids.

The car is modelled from one in Portland, which was donated to the Oregon city by a business man, Aaron M. Frank, three years ago.

When war clouds began to form, Captain J. Anderson of the Vancouver fire brigade got all the information he could about the construction so that Vancouver could have one, too.

The Vancouver car has a list of 76 items to aid in rescue work. These include oxygen masks, a lighting plant for flood lights, army stretchers, extension ladders, axes, mops, woolen blankets, hot water bottles, first aid kit, portable tannic acid spray for burns, life belts, a shallow diving outfit, an asbestos fire blanket and an asbestos suit.

Firemen have been trained in the use of this equipment. Already the car has had 32 calls in which the firemen have been able to assist in cases of asphyxiation, rescue of people from cliffs, results of carbon monoxide poisoning, dislocations, cyanide fumes. There was a successful call made to aid a person with hiccoughs and a rescue from fire.

The Portland car has further equipment of a movie camera, toboggans, skis, ski shoes and poles, radio sender and receiver set which can be fed from a telephone line if necessary and can operate from an AC power line or from either of two gasoline driven generators within the car. The sets are installed in gas and smoke helmets to enable radio broadcasting through the public address system from within areas choked with smoke, gas or fire. The equipment can floodlight a village and the car may also be used as a field kitchen or hospital. It has a speed of 60 miles an hour and is 29 feet six inches in length; nine feet, six inches high, and 95 inches wide. It took one year to construct the car, a product of years of study. It can be used for train wrecks, plane crashes, building collapses as well as in floods, jail breaks, riots or epidemics.—Toronto Star-Weekly.

## Are Able Propagandists

## Koreans Good Linguists And Eager To Help United Nations

Edward Hunter, New York Post Far East expert, says:

The Japanese have provided us with an unlimited supply of able propagandists who, in the past, have been the Japanese national morale. There are the Koreans, who have a deserved reputation as linguists, and have been forced to study Japanese from their childhood. Along with the Japanese language, they have absorbed as great a hatred for the Japs as any people could have for another. These Japanese-speaking Koreans, who from enforced contact with the Japs know Japanese mental processes as well as they do their own, are available as radio and leaflet propagandists throughout the Orient, from Rangoon to Chungking to Changsha, as well as in the U.S.

They already are organized for this work, with a never-say-die independence movement that is anxious for the opportunity to serve the cause of the United Nations.

Also available are such Japanese born abroad as have become thoroughly indoctrinated against Hiroshima. But they obviously can be handled only with utmost caution.

Of no value whatsoever for propaganda purposes are Occidentals, no matter how well they speak Japanese. Few could go on the air for any length of time without betraying that they are not Orientals—and no matter how true their words, they would be discredited and rejected.

The Japanese are avid radio fans, eating up their programs as hungrily as any Westerner. They are a people particularly susceptible to foreign ideologies—as proven by the extremes with which Japanese audiences have to go to keep down "dangerous thoughts."

Chungking has made a start at a radio barrage, but on only a small scale so far.

Re-organized and enlarged, this campaign could become an important element in the eventual Japanese defeat.

Man uses the milk of the camel, cow, goat, llama, reindeer, sheep, water buffalo, yak and zebu.

Crankcase oil in an automobile engine will be diluted less if a more volatile gasoline is used. 2452

Celebrating release from Bardia fortress where they were Axis prisoners, these British soldiers, liberated by an Imperial army, do a desert dance to the music of a captured Italian phonograph. Name of the dance was not given.

## A Fine Record

## Story Of A Spitfire That Avenged A Canadian's Death

This is the story of a Spitfire that roared through the skies to avenge a Canadian's death and won for itself a brilliant war record before it was wrecked in a collision.

The ship's name was the "Alloway." Named after Fitz-L. Hamilton (Hammy) Alloway, Winnipeg, who was killed in an air crash in Britain five years ago. Funds were raised to provide the Spitfire for Britain and as part of the Basutoland squadron it took part in 40 operational flights, provided escort for bombers raiding German-held territory and destroyed at least two—and possibly three—enemy aircraft that brushed wings with it.

On one occasion, "Alloway" encountered three Messerschmitts, climbed above them—dove on the tail of the trailing enemy machine and blasted it out of the sky with a cannon burst. The Spitfire dived and charged a second enemy craft, riddling the Nazi's fuselage with machine-gun fire. The enemy plane raced away to disappear in the clouds.

## Would Overwhelm Nazis

## If Tears Shed By Mothers Could Be Gathered Together

Poor children of Europe are starving and those who survive may never get over their present lack of food. Children are dying every day in Greece and now Finland has sent 1,200 children into Denmark because they face starvation. Yet it was Hitler who said no mother ever would have to weep for him. If all the tears which have been shed by the mothers because of him could be gathered together in one place, they would overwhelm Hitler and all his Nazis.—Niagara Falls Review.

## Do Not Waste Anything

Government bulletins say that one-third of the rubber used in armament can be scrap rubber, 50 per cent. of the steel can be scrap, the heavy demand for copper, brass, lead and zinc, which are all-important ingredients of ammunition and armaments, can be largely met by careful conserving of odds and ends. Therefore do not waste anything.

The electric eel is not an eel, but a fish, and it is four-fifths tail.

Human teeth are about 20 per cent. water.

## Sink Jap Sub

## Garbage Boat Operating In California Waters Hums Enemy Undersea Vessel

Bright and early on Saturday, December 20, the Tahoe, a seafaring and elderly steamboat, shoved out from her pier at Oakland, Calif. She plodded across the bay past Alcatraz and proceeded at eight knots out past the Farallones. Her owner, the city of Oakland, sent her thus to sea twice a week, loaded with garbage. Dumping the garbage 40 miles off the Golden Gate, the Tahoe would turn around and come plodding back—a prosaic enough job.

On this Saturday, however, Captain William Vartnau and his crew of 12 were mildly surprised when, as the old ship tramped along, a Jap submarine rose to the surface, dead ahead. Captain Vartnau acted at once. Chief Engineer Richard Boldt gave the engines every pound of steam he had. The Tahoe thereupon rumbled the submarine, which set off oil and debris came floating up.

Following this slightly premeditated but warlike act, the old Tahoe dumped her garbage and returned to her pier. Naval officers looked at her twisted bow, analyzed the gray paint that clung to it and said the submarine ramming was the McCoy all right. The Tahoe went into drydock for repairs and is now back at her old job of keeping Oakland sanitary.—Collier's Weekly.

## Quick Thinking

Simpson had been an abstainer for twenty years, but fell from the ways of grace.

Feeling the need of recuperation, he sent his boy for a bottle of whiskey.

"But," said the hotel proprietor, "who's it for?"

"For father," said the boy.

"Nonsense! Your father's been a teetotaler for longer years than you've lived."

"Well, at all events, he sent for it."

"To let you into a secret," said the boy, "he's going drinking and he wants the cork for a float."

## Gospels Written In Aramaic

Dr. Albert T. Olmstead, a University of Chicago professor, says the gospels were not written originally in Greek, as assumed by New Testament scholars, but in Aramaic, the Near Eastern language spoken by Jesus himself.

## Ready If Needed

## London Women Are Learning How To Handle A Rifle

Misses and their maids, business girls and civil defence workers were shown how to handle a rifle when the women's home defence force of Belgrave, fashionable London borough, held its first meeting. Dr. Edith Summerskill, who has argued long in Parliament in support of a women's home guard, attended the meeting and said that she and many other women felt that in the event of invasion they should be prepared to face up to the situation.

"I am not suggesting that women should be trained to take the offensive nor are they demanding equipment," she said, "but simply asking that they should be taught how to fire a rifle so that in the event of an emergency they will be there."

Women's units are being formed all over the country, and, although not given the official blessing of the Government, they are being supported unofficially by many members of Parliament.

## Food Stowed Away

## Average Person Consumes About 150 Tons During A Lifetime

You may eat "like a bird" or "like a horse" but it's unlikely that you've ever given any thought to the total quantity of food you consume during your lifetime. Some industrious statistician, says Bruce Cole, in Your Life magazine, has done a little computing and has reached the conclusion that the average person stows away about 1,400 times his own weight in food and drink, or close to 150 tons.

## Title Misleading

From its title, many people erroneously believe that Jules Verne's "Twenty Thousand Leagues Under the Sea" implies that depth. The book's title and story really deal with a trip 20,000 leagues in distance through the sea.

## A Good Idea

The owner of a Chelsea bar in London, who runs a savings group, has a sheet of War Savings stamps on the counter. "If you have enough money to buy a drink you can buy a 6d. stamp," clients are told.

The Amazon river is navigable for ocean steamers for 2,300 miles.

Geologists trace world history back a billion and half years.

## In Spite Of Losses

## Fighting Nazi Submarines Continues Job Says First Lord Of Admiralty

Thousands of Germany's best submarine personnel have been sent to the bottom or taken prisoner, A. V. Alexander, First Lord of the Admiralty, said in an address at Cardiff, Wales.

Strength of the British navy is growing but because of the Germans' building capacity and the wide range of their naval bases, the battle with the submarines is continuous, the minister said. "Nevertheless, a heavy toll is being taken and it seems clear to us that one of the great problems of the enemy is to man their new submarines with efficiently trained crews," he added.

Mr. Alexander told of the destruction last year of the submarine U-100, commanded by Schepe, one of the Nazis' ace commanders.

"He left Kiel in order to attack a convoy and when he came in the area he dived and remained submerged until darkness when a British destroyer appeared out of the mist," he said. "After dark he came up again, but the destroyer was still on the scene and Schepe dived again."

"A depth charge attack drove him out of his position and he surfaced astern of the convoy. He believed the escort would be out of position, but it was stronger than he knew. Three destroyers sighted him and closed for the attack."

"Schepe crash-dived, but too late. Depth charges smashed his lights as the U-boat dived deeper with the crew in pitch darkness. In a second attack his pumps were put out of action, air was escaping and water was coming into the bilges. Deeper went the submarine."

Schepe was a determined man. The battle went on for three hours with U-100 helpless, but only because the destroyers were waiting for the kill. Eventually the U-boat surfaced. To find a destroyer going full speed ahead to ram him.

"Too late Schepe saw what was coming. He shouted order to abandon ship, but as the crew hurried on deck scrambling into life-belts the crash came. It was only possible to save six of his crew."

## Material For Story

## Mark Twain Knew How To Get Reactions From People

In Berlin passengers on the street cars were at one time required to purchase tickets from the conductor and surrender them later to an inspector. One day Mark Twain paid 15¢ times on one trip, the ticket out of the window as soon as he had deposited the regular fare with the conductor. A few minutes later an inspector would board the car to examine the tickets. Of course Mark had none to show and had to buy another, apparently with great reluctance. The performance astonished the conductor and amused the other passengers, who thought the foreigner well punished for his negligence. But the American humorist had the last laugh. For during the entire little comedy he had been discreetly observing the reactions of those around him and out of the material obtained by this modest investment was able to fashion a story which brought him exactly \$500!

## Just Natural Talent

## Young Composer Given Tip From Mozart About Symphonies

Mozart was once asked by a young man for advice on the best way to write a symphony. Not wishing to be unkind or discouraging, the composer suggested tactfully, "You are quite young. Why not begin with a simpler form—ballads?"

"But you composed symphonies when you were 10 years old," persisted the young man.

"Yes," replied Mozart, "but I didn't ask 'how?'"

## Telephoning From Mexico

Times being what they are, you lectured now on what you can't say when you pick up the telephone to communicate outside Mexico. The operator reads a prepared speech which begins: "You are expected to refrain from discussing the weather, military affairs or anything else which might be of value to the enemy."

## No Wonder

"Boy, it's chilly in here," commented Clerk of Court L. B. Ingram as he closed a courtroom window in High Point, N.C. Then he discovered that on the jury were John Breeze and H. B. Blizzard. The court stenographer was Miss Ida Snow.

In its orbit around the sun, the earth travels at a rate of about 1,000 miles a minute.

You may shudder at ersatz clothes and plastic is an ersatz material, but you may wear them before long. These are air-shuttles, made from flame-resistant cloth and reinforced with plastics in the back, the breast section and head section to deflect flying shrapnel and even bullets in the event of a bombing.

## World's Week

By HAROLD L. WEIR  
Associate Editor and Daily  
Columnist of the Edmon-  
ton Bulletin

Disclosure by Chile's newly inaugurated president that his government contemplates no immediate break with the Axis is an unpleasant reminder that important countries whose collaboration we need and seek still think the Axis prospects of winning the war are too good to risk throwing their lot in with the United Nations.

President Juan Antonio Rios' attitude would be regrettable under any circumstances but that it should be made known 48 hours after the United States government got tough with a more unequivocal South American speculator in the prospect of an Axis victory, the government of Argentina, is particularly disappointing.

The United States had publicly announced its unwillingness to provide Argentina with military supplies so long as Argentina refuses to co-operate with the United States and other nations of the western hemisphere in the defence of the Americas.

The United States also made known that Argentina, many of whose highest officials are known to be pro-Axis or convinced that the Axis is going to win and to think Argentina will be able to do profitable business with Germany, would be entitled to buy only those export items which are not required by the United States or countries co-operating in hemisphere defence.

This is the sort of realistic economic sanction which President Castillo of Argentina and his collaborators had confidently asserted would not be instituted by the United States.

Castillo calculated that Argentina risked nothing by holding out on the United States and might gain much to being able to show the Axis it had never lifted its finger against the Axis while the issue of the war was in doubt.

The Argentine foreign minister who induced Chile to co-operate with him is resisting the efforts of the United States, Mexico, and other anti-Axis American republics to have all of the governments of the western hemisphere sever diplomatic relations with the Axis at the Rio conference in January.

Chile's attitude was defied on the ground that the country was in the process of choosing and installing a new government and that it should be coddled until the new president took office. The exposed nature of its long coast line and the importance of its territory to hemisphere defence also argued in favor of indulgent treatment in the matter of arms and economic favors.

But in such a desperate struggle for survival as the United Nations are now waging, neighbors are either with you or against you. Any country which chooses to remain on the fence and to maintain diplomatic and economic relations with nations seeking the conquest and destruction of North America and to give free rein to Axis agents plotting against the United Nations ought to be considered unfriendly and treated accordingly.

President Rios indicated that his government would break with the Axis only "only under the unmistakable expression of the national will."

It is well known that the United States enjoys greater popular favor in Chile than it does in most other South American countries. If the United States shows that it is playing with the Axis will cost Chile dearly. President Rios may construe the national will in a different sense than he now construes it.

But Chileans and Argentinians, however, are not the only South American officials who hesitate to co-operate with the United States because of hopes or fears that the United States may be defeated and the Axis achieve its dreams of world dominion.

Certain key officials in the armed forces of Brazil also are so convinced the Axis will win the war that they thus far have given only limited co-operation in the execution of plans for hemisphere resistance to the Axis.

This column does not mean to

convey the impression that the collaboration of President Vargas and Foreign Minister Aranha of Brazil with the United States is limited or insincere or to be considered in the same category with the attitude of Argentina and Chile.

That would be inaccurate and unfair. We are greatly indebted to Brazil for co-operation to date and expect that co-operation to increase steadily.

Brazil is far more important to the defence of North America than either Chile or Argentina. An unfriendly Brazil leaves the Panama canal, the heart of hemisphere defence, subject to the gravest danger of attack.

Without Brazilian collaboration the ferrying of our aircraft to the middle and far east would be exceedingly difficult, if not impossible in some instances. An unfriendly Brazil would make far more perilous the movement of our shipping and British shipping to many vital points.

In fulfillment of the anti-Axis attitude of its government Brazil this week jailed a large number of Axis agents who had done great harm to the Allies by their radioing to Axis points of information about the movement of United Nations ships and planes as well as by espionage and propaganda against the United States and its Allies. Some of the Axis short wave transmitting stations have been broken up by the Brazilian police.

Nevertheless pro-Axis sentiment in certain sections of the armed forces of Brazil and in parts of the Brazilian administration is still strong enough to seriously slow up, if not block, the execution of defence measures vital to the security of the canal and the supplying of distant parts with urgently needed American war materials.

The details of these situations are well known to the American officials concerned and need not be discussed here.

What is important for everyone to know and understand is that our ultimate victory is by no means taken for granted in vital areas and that weakness or incompetence in the conduct of our war effort at home or abroad may have the most injurious effects upon our security and freedom and certainly will prolong the war.

This paper invites its readers to listen to the Saturday Night Review which is broadcast by Harold L. Weir every Saturday night at 8:15 over CFRN (1280 kc.).

### THE WORLD OF WHEAT

by H. G. L. Strange  
Director of the Searle Grain Co.  
The new dominion government approved vitamin B white flour and bread will appear on the market on April 15th.

This new flour, from which the bread is made, is manufactured by a modified milling process worked out by Dr. L. L. Newman, the dominion cerealist, and his associates at the experimental farm at Ottawa. By this new process, a minimum of at least 365 international units of Vitamin B1 is contained in the flour as compared with about 165 units only in present average white flour. These additional units of Vitamin B1 more-over are extracted from the wheat kernel itself and are not added artificially.

The human body it seems requires definite minimum amounts of Vitamin B each day to ensure good health and abundant energy. The use of the new flour and bread, therefore, should tend to improve the health of men, women and children alike; besides which it helps to protect children from many diseases.

The new flour and bread is not only approved by the dominion government, but is strongly recommended by all medical men. The bread is not dead white in color but it has a rich, creamy, appetizing appearance. Farm wives therefore, and indeed all housekeepers, I suggest, would do well to give the Canada Approved Vitamin B bread and flour a thorough trial.

Examination time will soon be here, and officials of the department of education estimate that about 16,500 high school students in grade 9 and 12 will write them. This number is slightly below that of last year, and it is considered that enlistments among youths have reduced the total. Grade 9 examinations commence Wednesday, June 24, and will end on Tuesday, June 30. Grade 12 examinations will commence Tuesday, June 23 and end June 30.

### Kinsella Kernels

Miss Marjorie Unilowski spent last week visiting in Edmonton. Miss C. McKie and Mrs. G. Witts spent last Thursday and Friday in Edmonton.

Pilot Officer Bert Carpenter of the R.C.A.F. is home on two weeks leave. B. R. Davis has joined the R.C.A.F. and is now stationed at Toronto.

A barber from Viking will be in Kinsella every Wednesday, starting on April 22nd.

Mrs. Jas. Stronach and Miss Cora Murray are patients in the Viking hospital.

Mr. B. Wachter spent last week end at his home.

Mrs. W. Brown, Francis and David enjoyed the past week in Edmonton.

Mr. F. Williams was a visitor in town last week.

Among those spending their Easter holidays at Kinsella were Mr. and Mrs. F. Karbal of Hate, Mr. Ludwig Jackowick of Edmonton and Mr. Clifford Bawden of Edmonton.

### Obituary.

MRS. A. SCULTHORPE

The funeral of Mrs. Anesh Sculthorpe, of Kinsella, who died at the Viking hospital on Sunday, April 5th, was held at the Kinsella United church on Wednesday, April 8th, in the afternoon. The service was conducted by Rev. Mr. C. R. Wragg, pastor of the Viking United church. Rev. J. D. Woolatt, of the Jarro-Kinsella United church, delivered the funeral sermon. Sorrowing friends, relatives and neighbors were gathered to hear a final message of hope and consolation. The late Mrs. Sculthorpe died after a few months illness due to cancer. Burial took place in the Kinsella cemetery.

The pallbearers were Messrs. D. Corbett, J. Zelinski, J. Harding, O. Overbo, B. H. Green, and F. Candy.

The deceased was born in Ketteren, England, April 14, 1880. Her marriage to Mr. John Sculthorpe took place in 1908. Shortly afterwards they came to the Kinsella district and took up a homestead. Her husband passed away in 1927. Although they moved off the homestead, Mrs. Sculthorpe made her home in Kinsella until her death. Her passing has cast a gloom over the community where she was well beloved by everyone. She leaves to mourn her loss one son, Arthur John, at home; one full sister, Mrs. Mary Jones of Liverpool, England; two full brothers Frank and John Partridge of Boston, England; one half-sister, Lotie Neil, and one half-brother, Basabeth Neil, both of Threlby, England.

Floral tributes were from Mr. and Mrs. D. Corbett; B. C. Carpenter and family; Jack MacPherson; G. G. Chapman; Mr. and Mrs. Witton.

### LINE ELEVATORS APPOINT LAMONT VICE PRESIDENT

Announcement of the appointment of Cecil Lamont as vice-president of the North-West Line Elevators Association was made today by V. W. Tryon, president, following a meeting of Board of Directors of the association. Mr. Lamont, in October last, took over the duties of L. W. Brockington, K. C., who held the post of general counsel for the Line Elevators and since the outbreak of war had been on leave of absence from the association, occupying the post of special advisor to the war committee of the Dominion cabinet.

The North West Line Elevators Association is comprised of the owners and operators of 3400 country grain elevators and coal yards located throughout western Canada and terminal elevators at the head of the Great Lakes and on the Pacific coast with a total storage capacity of 365 million bushels of grain.

### RECIPE FOR RURAL PROGRESS

To a large measure of foresight, good judgement and clear thinking, add a desire to work with neighbors for mutual advantage and mix well with a quantity of co-operative education. Keep out all petty spite and jealousies. Pour in a good measure of the milk of human kindness. Spice with a desire for the advancement of fellow humans and mix well together. The result is a successful co-operative organization. — Wheat Pool Budget.

## HELP THE MAN IN UNIFORM

You can help the man in uniform, merely by saving regularly. Because when you save you increase the flow of labour and material from civilian to war production.

And when you lend accumulated savings to the country in War Savings Certificates and war loans, you help Canada supply to our fighting men the arms and equipment they need. Seize this patriotic opportunity!

Pull your full weight! Start saving NOW!

*To Save is Practical Patriotism*

THE CHARTERED BANKS OF CANADA

## LOYAL CITIZENS DO NOT HOARD!

Hoarders are people who buy and store away goods beyond their immediate needs.

They want to be in an unfair position over their neighbors.

Hoarders are traitors to their country and their fellow citizens, because by creating excessive and unnecessary demands for goods, they slow down the war effort.

There is no excuse for "panic buying" and hoarding. Everyone will have enough, if no one tries to get more than a fair share.

Hoarding must stop! Every unnecessary purchase makes it more difficult for Canada to do a full war job.

### THERE'S A LAW AGAINST HOARDING

It is against the law to buy more than current needs.

Violation of the law is punishable by fines up to \$8,000, and imprisonment for as long as two years.

**AVOID ALL UNNECESSARY BUYING — AVOID WASTE  
MAKE EVERYTHING LAST THE LONGEST TIME POSSIBLE**

In cases where it is advisable for you to buy in advance of your immediate requirements—such as your next season's coat supply—you will be encouraged to do so by direct statement from responsible officials.

OTTAWA, CANADA

## Wainwright M. D. No. 392 Council Have Busy Three Day Session

(continued from front page)

cipal District of Wainwright No. 392 and C. Nicomedes and submitted this tenth day of April for repaving twelve miles of road to be approved and signed by the officials of the district and contractor. Cd.

Moved by Mr. Sutherland that the secretary write the Vermilion school division No. 1715, lying within the bounds of the M.D. Wainwright No. 392, that consideration be given to have this area withdrawn from the Vermilion school division and included in the Wainwright school division. Cd.

By-law No. 1, a by-law of the Municipal District of Wainwright No. 392 authorizing the current hospital tax levy presented (Wain. Mun. Hospital).

Moved by Mr. Sutherland that By-law No. 1 receive its first reading. Cd.

Moved by Mr. Spencer that By-law No. 1 receive its second reading. Cd.

Moved by Mr. Taylor that By-law No. 1 receive its third and final reading. Cd.

By-law No. 2, a by-law of the Municipal District of Wainwright No. 392, authorizing the current hospital levy (Provost Mun. Hosp.). Moved by Mr. Sutherland that By-law No. 2 receive its first reading. Cd.

Moved by Mr. Dixon that By-law No. 2 receive its second reading. Cd.

Moved by Mr. Fahner that By-law No. 2 receive its third and final reading. Cd.

By-law No. 3, a by-law of the Municipal District of Wainwright No. 392, authorizing the school tax levy (Wainwright school division) presented.

Moved by Mr. Sutherland that By-law No. 3 receive its first reading. Cd.

Moved by Mr. Archibald that By-law No. 3 pass its second reading. Cd.

Moved by Mr. Dixon that By-law No. 3 pass its third and final reading. Cd.

By-law No. 4, a by-law of the Municipal District of Wainwright No. 392, authorizing the current school tax levy (Provost school division) presented.

Moved by Mr. Sutherland that By-law No. 4 pass its first reading. Cd.

Moved by Mr. Taylor that By-law No. 4 pass its second reading. Cd.

Moved by Mr. Archibald that By-law No. 4 pass its third and final reading. Cd.

By-law No. 5, a by-law of the Municipal District of Wainwright No. 392, authorizing the school tax levy (Vermilion school division) presented.

Moved by Mr. Sutherland that By-law No. 5 pass its first reading. Cd.

Moved by Mr. Fahner that By-law No. 5 pass its second reading. Cd.

Moved by Mr. Dixon that By-law No. 5 pass its third and final reading. Cd.

Moved by Mr. Archibald that the statement of receipts and expenditures for month ending March 31, 1942, as presented by the secretary be accepted and incorporated in the minutes. Cd.

Moved by Mr. Taylor that the letter from Patquin and Johnstone and Company, auditors of the district, dated March 26, and cash and bank reconciliation statement of the former districts of Ribstone, Vale, Gilt Edge and Battle River as at March 23rd be received and filed for reference, and that the following items of Ribstone M.D., as follows: Dr. Folkins, 186.68; Marian Young Jan. relief, 6.00; F. B. Brewer, Jan. relief, 7.00; Alta Gov. Telephone, 7.18; Mrs. S. Millard, relief, 24.00; and from the former district of Gilt Edge, Mrs. Casper relief, 40.00, be authorized as paid. Cd.

Moved by Mr. Sutherland that the report of Mr. Spencer regarding the Andrew Peterson family and authorization of relief, hospitalization and funeral expenses, be accepted and his actions approved. Cd.

By-law No. 6, a by-law of the Municipal District of Wainwright No. 392, authorizing the current municipal tax levy presented and discussed in detail.

Moved by Mr. Archibald that By-law No. 6 pass its first reading. Cd.

Moved by Mr. Taylor that By-law No. 6 pass its second reading.

and that same be submitted to the department of municipal affairs for consideration. Cd.

Moved by Mr. Taylor that the secretary-treasurer be instructed to interview the department of municipal affairs regarding By-law No. 6, being the estimated expenditures and receipts for 1942 for their consideration, and that he also take up the matters of unpaid W.A.R., P.F.I. and P.F.A. accounts with the superintendent of that department with view of payments being made to the farmers in this municipal district without further delay, also take up with the department of public works of the bridge over Battle River in Sec. 35-46-4 W4. Cd.

Moved by Mr. Taylor that a letter be sent to Mr. E. L. Grey, Regina, Sask., recommending a payment of fifty per cent of the P.F.A. and P.F.I. bonus be made at once to all unpaid farmers in the municipal district as these men are in dire need of money for seed and spring operations. Cd.

Moved by Mr. Spencer that the application of D. Dugdon for Old Age Pension be approved for the maximum amount, and that forms 10A regarding Mr. and Mrs. Watson and M. D. Askin be completed forwarding all papers to the Old Age Pension department. Cd.

Correspondence regarding Donald McLean, delinquent child, read and noted and D. LaRoque relief. Filed.

Moved by Mr. Fahner that the application of W. Moore for relief be approved, and that emergent relief be issued to the extent of \$8.00 for this month of April and a copy of this application be forwarded to the M.D. Hillcrest whose responsibility this is. Cd.

That in the matter of C. McPeak as per letter received dated April 8th, regarding medical and possible hospitalization that the recommendation of councillor Spencer is that some action should be taken.

Moved by Mr. Spencer that if on investigation we find this man unable to pay we will assume responsibility for doctor's care and hospitalization. Cd.

Moved by Mr. Archibald that the list as relief recipients as presented and listed that authorization for monthly payments be approved:

E. Hough	\$ 5.00 order
Marian Young	8.00 by cash
F. B. Brewer	7.50 by cash
Mrs. Susan Millard	12.00 by cash
Mrs. Lemare	8.00 order
E. Glover	5.00 order
T. Roberts	10.00 order
A. R. Milne	10.50 order
F. Carter	12.00 order
Geo. McLean	20.00 order
Mrs. Casper	50.00 by cash

Hospital notices: St. Anne's hospital, Hardisty, Gerald and Andrew Peterson, O.K.; St. Anne's hospital, Hardisty, G. Elliott, not indigent; Wainwright Mun. Hospital, Jackie Craig, investigate.

Moved by Mr. Strachan that in the matter of Mrs. W. Teers that the secretary be instructed to issue cheques to:

Dr. Eld	65.00
Dr. Pearl	10.00

in full settlement of these indigent accounts. Cd.

Table Dr. Wallace letter re: Doctor's contract for committee's information.

University hospital account Lucille Freestone \$49.35, secretary to write to the hospital for itemized statement.

Moved by Mr. Spencer that council adjourn until 7:30 p.m. J. D. Adams list of road machinery in this district filed for reference.

That in the matter of the petition from the Municipal District of Humana No. 393, regarding the roadway between sec. 1 and 12-41-7 and 6 and 7 in 41-6, requested some work be done, be received and that the secretary be instructed to write the Humana district to ascertain the probable cost of this work and that this matter be brought up at a later date.

Mr. G. H. Curtis of the Killam Manufacturing Company awaited on the council with regards to 1942 works program. Mr. Curtis quoted his scale of costs but stated he would not be available until August of this year.

Applications for motor-grader operators presented and fully discussed.

Moved by Mr. Fahner that the following men be engaged as motor grader operators at the rate of pay set forth for public works, 1942:—

J. Zijle	65 cents per hour
J. Germain	65 cents per hour
H. Morrison	65 cents per hour
J. Sutherland	50 cents per hour
T. Goddard	50 cents per hour
F. Grayston	50 cents per hour

Motion carried with Mr. Taylor dissenting.

These men be notified to report for work as soon as weather permits.

Wood inspector appointments tabled until May meeting.

Letter from T. P. Richmond of Hardisty regarding domestic animals filed.

Secretary was instructed to compile list of pound-keepers for May meeting.

That in the matter of bridge over the Battle River in sec. 12-46-7 W4.

Moved by Mr. Taylor that the minister of public works be requested to consider the change of location of said bridge in sec. 12-46-7 to sec. 35-46-4 W4. Motion carried, Mr. Dixon dissenting.

Moved by Mr. Spencer that the council adjourn until 6 o'clock a.m. Saturday, April 11th.

By-law No. 7, a by-law of the Municipal District of Wainwright No. 392, authorizing the purchase of one Adams motor-grader No. 201 for the sum of \$3800.00 presented.

Moved by Mr. Sutherland that By-law No. 7 pass its first reading. Cd.

Moved by Mr. Archibald that By-law No. 7 pass its second reading. Cd.

Moved by Mr. Dixon that By-law No. 7 pass its third and final reading. Cd.

That in the matter of consolidation of taxes that this matter be tabled until May meeting.

That the secretary write the Canadian Pacific Railway Co. for information regarding the NW 7-42-6 W4 and that Mr. Spencer as a committee investigate the matter of establishing a roadway through said land.

By-law No. 8, a by-law of the Municipal District of Wainwright No. 392, for the purpose of a compromise of tax (Section 187 M. D. Act) re: W½ 13-42-6 W4, A. M. Lees and payment thereof presented.

Moved by Mr. Sutherland that By-law No. 8 pass its first reading. Cd.

Moved by Mr. Spencer that By-law No. 8 pass its second reading and forward same to the minister of municipal affairs for approval. Cd.

In the matter of the NE 7, NW 8-45-2 W4, L. R. Crawford that this matter be tabled pending committee's report in dealing with M.D. Merton's assets and liabilities.

Moved by Mr. Taylor that the application of R. O. Moore under the S.A.B. Act be received and the arrears of taxes cancelled and assessed value deleted from the assessment roll as per requirement of the said Act. Cd.

In the matter T.R. Act re: Henry Potvin SW 22 NW 15-44-5 W4, application for cancellation of taxes same being refused on account of acquiring said land after enlistment.

Moved by Mr. Archibald that a refund of \$8.50 be made to W. C. Runnells re: purchase of old lumber from the former district of Ribstone. Motion carried with Mr. Strachan dissenting.

Correspondence read from Patquin Johnstone and Co. regarding auditor's verification notice SE 2-42-6 W4.

Moved by Mr. Spencer that the secretary be authorized to cancel the following taxes, re: SE 2-42-6 W4 as follows: mun. 3.03, sec. 1.32, school 22.52, hospital 11.14, being the amount of discount due under the Tax Recovery Act. Cd.

Moved by Mr. Sutherland that with regards to W. Schwenk's tax situation that discounts under the Tax Consolidation Act be allowed and that pay sheet as presented and certified by the councillor for \$60.00 for work completed in 1941 be passed for payment and amount applied on his arrears of taxes. Motion carried, Mr. Strachan dissenting.

Moved by Mr. Spencer that in the matter of Dr. York and agreeing to purchase the SE 10-41-4 W4 from the former district of Vale be tabled for further investigation and brought up at next meeting. Cd.

Moved by Mr. Sutherland that By-law No. 30 of the former Municipal District of Gilt Edge No. 422 re: sale SE 16-44-4 W4 having been approved by the minister of municipal affairs receive its third and final reading and secretary be instructed to have the transfer in form B registered. Cd.

By-law No. 9, a by-law of the Municipal District of Wainwright No. 392, allowing a rebate of seven

percentum upon all current taxes if paid by September first of each year (Sec. 549 M.D. Act) presented. Moved by Mr. Archibald that By-law No. 9 pass its first reading. Cd.

Moved by Mr. Sutherland that By-law No. 9 pass its second reading. Cd.

Moved by Mr. Spencer that By-law No. 9 pass its third and final reading. Cd.

Secretary reported considerable number of applications for leases under the Tax Recovery Act for consideration of the council.

Moved by Mr. Dixon that all pasture lands under the control of the municipal district be leased for the amount of the current taxes of each year payable in advance subject to sale without notice. Cd.

Moved by Mr. Sutherland that all cultivated lands under the control of the municipal district be leased for one-quarter share of all crops grown delivered at the elevator clear, subject to sale without notice. Cd.

Secretary instructed to write E. Russell of Chauvin regarding his 1941 unpaid rental re: part of sec. 1 and SW 12-43-1 W4.

Moved by Mr. Archibald that all lands holding a Tax Notification and that has been offered for sale under the Tax Recovery Act, be subject to lease, reserving the right of the occupant the privilege of leasing same. Cd.

The following applications for leases were read and granted:

George Bishop, SE 30-44-4 W4 agriculture;

Joe Dencourt, NE 20-45-5 W4, agriculture;

Joe Dencourt, NW 20-45-5 W4, pasture;

Ed Dencourt, S½ 32-45-5 W4, agriculture;

Elmer Babb, S½, NE 30-46-5 W4, agriculture;

C. E. Newell, SW 4-45-3 W4, agriculture;

R. J. Roberts, SW 16-47-5 W4, agriculture;

M. McCompton, N½ 12-47-5 W4, agriculture;

Mrs. C. McLean, W½ 24-47-5 W4, pasture;

P. T. Hayward, NW 34-43-6 W4, pasture;

R. H. Challenger, N½ 6-44-3 W4, pasture;

I. P. Coode, NE 1 SW 12-43-1 W4, agriculture;

Phyllis Pilhon, N½ 13, NE 14, SE 24-43-1 W4, pasture;

W. Tessier, NW 1 SW 12-42-1 W4, pasture;

C. Stevens, NW 4 NE 8-45-2 W4, agriculture;

Henry Morrison, SE 18-42-2 W4, agriculture;

Moved by Mr. Strachan that he adjourn for lunch until 1:30 o'clock p.m.

A. J. Ruste, E½ 26-45-7 W4, agriculture;

Geo. Ruebnok, SW 20-44-8 W4, pasture;

E. Mills, W½ 24-44-7 W4, agriculture;

C. L. Rodgers S½ of SW 12-44-7 W4, agriculture;

Secretary was instructed to write Mr. E. H. Johnson regarding his application to lease the W½ 2-45-1 W4.

In the matter of the offer of G. Ledue of Fabyan to purchase the east half 5-46-7 W4.

Moved by Mr. Dixon that this offer be received that the secretary be instructed to write the Canadian Farm Loan Board advising of this offer and also to obtain the upset price and valuator's report for the records of the former district of Battle River. Cd.

Moved by Mr. Taylor that the secretary compile a list of all rentable lands in the district not under contract and publish same in the Irma Times. Wainwright Star and Chauvin Chronicle for three issues. Cd.

the action of this was approved by council.

Correspondence from the federal department of agriculture as to the Board of Review decision as to P.F.A. awards in Swp. 45-5 W4, being 4.8 bushels per acre crop failure assistance.

The following correspondence from the department of agriculture of the province of Alberta re: free freight on feed for stock, and oats, and the Chauvin local Canadienne-Francaise and the municipal office Ribstone reply, also correspondence on seed grain, forage crop seed, and grasshopper menace read and filed.

Mr. Spencer reported on the matter of a gravel pit in the NE 7-43-3 W4.

Moved by Mr. Taylor that Mr. Spencer and Mr. Taylor be appointed a committee with regards to a gravel pit in NE 7-43-3 W4, and report at next meeting, and secretary be instructed to write the department of lands and mines in this connection.

Secretary instructed to write department of lands and mines re: special permits to trap muskrats in the former district of Vale as requested in their letter of recent date filed 100J, and file correspondence for reference.

Moved by Mr. Sutherland that the Court of Revision in regards to section 35 of the Assessment Act of 1938 be held at the municipal office of Wainwright No. 392 at two o'clock in the afternoon of May 14th. Cd.

That in regards to the letter from the provincial treasury branch at Wainwright dated April 18 requesting the rental of the municipal office at Irma, the secretary was instructed to advise that owing to a number of municipal records in the said office that they cannot comply with the request.

Moved by Mr. Spencer that a building committee consisting of three members of the council be formed to make necessary alterations to the new office building as soon as the agreement to purchase has been approved by the minister of municipal affairs. Cd.

Moved by Mr. Archibald that Mr. Sutherland, Mr. Dixon and Mr. Spencer constitute the building committee. Motion carried, Mr. Spencer dissenting.

Secretary instructed to order necessary acts and amendments to the existing Certificate of Title thereto, and subject to all taxes, rates and assessments imposed thereon subsequent to the 31st day of December, 1941.

There are 40 acres of brush which could be broken and five acres of slough. The land was cropped in 1940, only thirty-five acres being cropped in 1941. The distance to the nearest school is one mile. The top soil consists mostly of black loam 6 to 8 inches in depth and the subsoil consists mostly of clay. There are no buildings on the land, no wells and no water supply. The land is fenced all around with two strands of barbed wire.

The sale will be subject to an upset price of \$2375.00.

Tenders must be enclosed in sealed envelopes marked "Tender re Hudson's Bay Against McKinnon, No. 30889" and addressed to the Clerk of the Supreme Court, Court House, Edmonton, and must be in the hands of the said clerk not later than 12:00 o'clock noon on the 15th day of April, 1942.

Terms of Sale

Each tender must be accompanied by a marked cheque or cash for 10% of the amount of the tender, and the balance of the purchase price shall be paid into Court within 40 days after the acceptance of the tender, without interest. The Purchaser to make his own arrangements for the money by way of mortgage or otherwise.

The deposit of 10% shall be forfeited by the successful tenderer if he refuses to carry out the purchase after the acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof; the highest or any tender not necessarily accepted. In all other respects the terms and conditions of the sale will be standing conditions of sale of the Supreme Court of Alberta, as far as the same are applicable hereto.

For further particulars apply to Messrs. Newell, Lindsay, Bony & Ford, Barristers, Canada Permanent Building, 100th Street, Edmonton, Alberta.

DATED at the City of Edmonton, in the Province of Alberta, this 24th day of December, A.D. 1941.

"R. P. WALLACE" C.S.C.

Sec.-Treas. Recev.

Let's all vote "Yes" on the plebiscite April 27th and help the government get on with the war effort. The government wants the "go ahead" sign from the people of Canada from coast to coast. From the turn of events in the war on land and sea, the United Nations must have all the support each and everyone can muster. Let's go, Canada.

## OLD CROP FLAX STILL ON FARMS

Producers of flaxseed who still have old crop flax over and above 1942 seed requirements should be advised that the new and higher price of \$2.25 per bushel that becomes effective on August 1, 1942, applies only to "flaxseed grown in 1942." This is made very clear and definite in Order in Council P.C. 1800. The Canadian Wheat Board will be the only buyer of flaxseed in the new crop year and has no power to buy any flaxseed except that of the 1942 crop.

There is no object in holding such flaxseed for a higher price after July 31, 1942, as producers should sell their extra stocks for seed to their neighbors or to a dealer authorized by the Board or deliver to a country elevator.

Every farmer who assists in the distribution of flaxseed by selling extra flaxseed to his neighbors is definitely assisting the government in an important war objective. Every bushel of flaxseed grown in 1942 will be needed and the co-operation of farmers to this end is requested.

If you have something useful that you don't need, a want ad in this paper has a good chance of selling it for you to somebody who does.

## JUDICIAL SALE OF FARM PROPERTY BY TENDER

Pursuant to an order of Mr. Justice O'Connor of the Supreme Court of Alberta, and of certain directions for sale, sealed tenders will be received for the purchase of the following parcel of farm property situated thirteen miles from the Village of Irma, Alberta, to be sold in one parcel:

The North West quarter of Section Twenty-six (26), Township Forty-seven (47), Range Nine (9), West of the Fourth Meridian, and containing according to Township Plan dated at Ottawa the 23rd day of August, A.D. 1904, an area of one hundred and sixty-one (161) acres more or less; and reserving mines and minerals and the right to enter upon the said lands and work the same;

subject to the conditions and reservations contained in the original grant from the Crown or in the existing Certificate of Title thereto, and subject to all taxes, rates and assessments imposed thereon subsequent to the 31st day of December, 1941.

There are 40 acres of brush which could be broken and five acres of slough. The land was cropped in 1940, only thirty-five acres being cropped in 1941. The distance to the nearest school is one mile. The top soil consists mostly of black loam 6 to 8 inches in depth and the subsoil consists mostly of clay. There are no buildings on the land, no wells and no water supply. The land is fenced all around with two strands of barbed wire.

The sale will be subject to an upset price of \$2375.00.

Tenders must be enclosed in sealed envelopes marked "Tender re Hudson's Bay Against McKinnon, No. 30889" and addressed to the Clerk of the Supreme Court, Court House, Edmonton, and must be in the hands of the said clerk not later than 12:00 o'clock noon on the 15th day of April, 1942.

Terms of Sale

Each tender must be accompanied by a marked cheque or cash for 10% of the amount of the tender, and the balance of the purchase price shall be paid into Court within 40 days after the acceptance of the tender, without interest. The Purchaser to make his own arrangements for the money by way of mortgage or otherwise.

The deposit of 10% shall be forfeited by the successful tenderer if he refuses to carry out the purchase after the acceptance of his tender. Cheques of unsuccessful tenderers will be returned to them immediately after rejection thereof; the highest or any tender not necessarily accepted. In all other respects the terms and conditions of the sale will be standing conditions of sale of the Supreme Court of Alberta, as far as the same are applicable hereto.

For further particulars apply to Messrs. Newell, Lindsay, Bony & Ford, Barristers, Canada Permanent Building, 100th Street, Edmonton, Alberta.

DATED at the City of Edmonton, in the Province of Alberta, this 24th day of December, A.D. 1941.

## Total War For Canada

"Total War" is a phrase which we hear often these days. For many months now it has been a reality to the people of England and more recently Australians have come to know the full force of its meaning. Because we in Canada have been far removed from the scene of the conflict, our war effort, while it has been most commendable, has not been what could be considered "total." In proportion to our population, the numbers of men who have joined the armed services have been large, and the production of munitions and other materials of war has gone forward at a pace far beyond initial schedules.

Mr. Churchill described our war effort as "magnificent," and Lt.-General A. G. L. McNaughton, on his arrival in England after his recent visit to Canada, said of us: "There has been a wonderful speed-up in everything. I have seen the spirit of those in training, the devotion of the men and women in the factories working with determination and confidence. There is no doubt our forces here are constantly in the minds of those at home and we shall lack for nothing that is required to equip us for battle against the enemy. We shall have all the reinforcements needed, and the people of Canada, in mind, body and soul, are fully determined to see this through to its successful conclusion. So I come back to the Canadian Forces, and we go forward with every confidence in the fine support which we shall have."

### Mobilization Plan

Nevertheless, Canadians everywhere have welcomed recent measures taken by the government to further increase the Dominion's contribution toward the great struggle for freedom in which the United Nations are now engaged. The manpower mobilization plan, together with the proposed expansion of our armed services, promises to make Canada's war effort "all-out" and to put our war industries and our army, navy, and air force on a footing comparable with those of England and Australia. If the manpower mobilization plan is enforced to the limits of its powers there will be few men between the ages of seventeen and forty-five who will not be affected, for it provides that all men in that age category be in the armed forces or in some essential industry.

Agriculture will be affected in that no one engaged in farm work will be allowed to change his occupation except to join up for active service, or to take seasonal employment in another primary industry. In industrial centres it is expected that factory workers will be absorbed more and more into war industries or into the armed services, as the "luxury" industries will gradually discontinue producing, due to shortage of materials or consumer restrictions. Women, too, are to be encouraged to take over in greater numbers, duties which will release men for active service.

### Selective Service

A system of selective service will be used in mobilizing manpower, and allocating men to that field of service for which they are best suited. It is hoped to operate the plan as much as possible on a voluntary basis, but when compulsion is needed, provision is made for it to be applied. It is estimated that to bring our war effort up to the desired strength, there is need in the next few months for 100,000 more workers for munition plants; 13,000 men for the navy; 90 to 100,000 for the army overseas; and 70 to 80,000 for the air force. Our army is to be expanded by two new divisions, the seventh and eighth, and these will be used as a "mobile reserve" for defense of our East and West coasts. In the last war, Canada had only five divisions, and the fifth was partially disbanded. In this war there are six, with the immediate prospect of two more. In addition we have our navy and air force, the latter to be greatly augmented, since it was announced recently that the costs of the R.C.A.F. for the coming year are to be \$120,000,000 greater than was originally planned. Thus Canada is facing the increasing threats of enemy attack, with a mobilization of men and resources which should cause confidence and pride.

Killer whales, most savage of the whale family, hunt in packs like wolves, and superstitious Eskimos believe that the killers really are wolves changed into sea animals.

The family name of the Marquis of Linlithgow, Viceroy of India, is Hope.

Gelatin is the highest protein food. It contains about 85 per cent. protein, while meat contains but 25 per cent.

Gauze is said to have been first named in Gaza, in Palestine; hence its name.

## Air Force Graduations

Students Whose Names Are In Western Canada

The following students graduated as Pilots under the British Commonwealth Air Training Plan from No. 11 Service Flying Training School, Yorkton, Sask., on March 24th, 1942: Saskatchewan: LAC J. E. Bator; Balfour; LAC J. M. Binns, Edam; LAC R. J. Bryans, Maitland; LAC C. S. Coppin, Kamack; LAC C. B. Dixon, Maple Creek; LAC J. D. Duncan, Antler; LAC A. L. Forbes, Maple Creek; LAC H. R. Geddes, Grenfell; LAC M. G. Healey, Briercrest; LAC H. B. Hoover, Yeoman; LAC H. M. Johnson, Parkside; LAC B. D. Kirkham, Saltcoats; LAC A. A. Marean, Estlin; LAC A. G. Peterson, Windthorst; LAC D. H. Trickett, McLean; LAC H. F. Walker, Estevan; LAC D. W. Banting, Port San; LAC W. E. Beatty, Fleming; LAC W. E. Bluet, Carruthers; LAC C. M. Colquhoun, Maple Creek; LAC A. A. Currie, Netherhill; LAC L. W. Duffield, Lloydminster; LAC F. D. Ford, Gray; LAC J. Gedak, Estevan; LAC B. T. Hamill, Whitewood; LAC O. Hinkle, Killam; LAC L. W. Hunt, Kinistino; LAC A. L. Johnston, Valparaiso; LAC D. E. Malloy, Macleod; LAC V. F. McHaffie, St. George; LAC C. J. W. Piprell, Borden; LAC D. J. Smith, Nalcan; LAC C. G. Walker, Estevan; LAC B. W. White, Maple Creek.

Alberta: LAC N. M. Almond, Vulcan; LAC G. W. Gabel, Didsbury; LAC E. E. Phin, Bassano; LAC W. D. Finlay, Killarney.

The following composed part of the graduating class at No. 2 Wireless School, Calgary, March 26th when Group Captain E. R. Owen, Commanding Officer, officiated at the graduation exercises held in the drill hall of the school.

Alberta: F. J. Patterson, Forestburg; W. G. King, Jeepee Creek; J. A. Banks, Forestburg; J. J. Belzil, Owsley.

Saskatchewan: E. R. Aldous, Lorne; E. Hunter, Dismore; J. J. M. Lambart, Maple Creek; H. A. Midgill, Elbow; E. F. Banks, St. Cyr; LAC R. W. Brookes, A. G. Long, Kellogg; E. Rutski, McKim; Manitoba: A. G. Thomson, Balmoral.

## Powdered Tomatoes

Horticulturalist Says The Quality And Vitamin Content Not Lost

H. J. Moore, horticulturalist of Islington, Ont., has devised a means of dehydrating tomatoes for shipment to Britain, and reducing them to powder form without impairing the quality and without loss of vitamin content. A ton of fresh tomatoes when dehydrated and powdered will weigh approximately 125 pounds, said Mr. Moore. A ton of tomatoes will produce 2,000 quarts of soup.

## HOME SERVICE

POPULAR GIRLS KNOW CARD GAMES

"Slapjack" Is Rough, But Fun! Friends are grateful today for casual, informal fun. Be ready to entertain one, two or more with such popular card games as "Gin Rummy," "Slapjack."

"Slapjack" is a simple card game but full of wild suspense. Two players, with a pack face down between them, take turns flipping up cards and laying them on the table—fast! A Jack turns up? SLAP! BANG! You both try to be first to slap it—your both miss—the game goes crazy! For a crowd, stunt games are especially fun. Here's one—"Uh Uh Woof Woof."

In time to a hot, fast radio tune, you all count "One, two, three, four, five six, uh eight, nine woof, eleven etc.," in unison. All sevens and multiples of seven are "uh," and all multiples of ten are "woof." When a player makes a mistake he must drop out!

In our 32-page booklet are 47 games and stunts—for two, three or more—to make you a welcome guest, an appreciated hostess. Tells how to play "Gin Rummy" (popular from coast to coast). Includes card games, pencil-and-paper and nonsense games, puzzles, games of skill.

Send 15c (in coins) for your copy of "Games and Stunts for Two or More" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg, Man.

The following booklets are also available at 15c each: 198—Announcements, Showers and Birthday Parties 160—Planning and Budgeting Your Wedding 146—Home Course in New Ballroom Dances 391—How to Make Your Own Rugs 114—Good Letter-Writing Made Easy

Finland's summer lasts only two to two and one-half months. 2459

WHY HAVE SORE FEET? JUST RUB IN MINARD'S LINIMENT KING OF PAIN

## A Chinese Vegetable

Culture Grows Readily And Has Many Culinary Uses

For hundreds of years the Chinese have been growing a vegetable which tastes like a combination of celery and lettuce. Lately, inquiring Occidental food experts discovered that this product was rich in at least four vitamins—A, B, C, and G. It was not surprising, therefore, that a well-known American firm of plant-raisers and seed-distributors should have commenced, this season, the promotion of the plant, called "celtuce," on this side of the Pacific. The vegetable is said to have several advantages. For instance, besides being vitamin-rich, it grows readily and has many culinary uses.

One suspects that "celtuce" is not quite the "food of the gods" that the catalogue will make it out to be, but it should find ready sale among the people of a currently vitamin-conscious continent.

The reference to vitamins brings to mind the most recent advice of specialists in this line, who now recommend the eating of such commonplace but heretofore despised delicacies as dandelions, stinging nettles, burdock, wild mustard and so forth. Then, of course, there is grass, for such as like it. As the wags have already observed, King Nebuchadnezzar who went in for a diet of that stuff, may not have been as crazy after all. By the same token, many of the ancient herbal remedies and "diets" recommended by the witches, "wise women" and other cures of human ills are now being found to have merit. This, of course, is merely a re-discovery of things the ancients knew but which subsequently became regarded as quackery. Science, it seems, sometimes progresses in circles. Brandford Expositor.

## Shortage Is Serious

Two Ships Carrying Oats For Bermuda's Horses Were Lost

Bermuda's horses, upon which the colony depends largely for transportation, are threatened with famine. M. H. P. Vesey, chairman of the Colonial Food Board, said loss of two ships bearing cargoes of oats to Bermuda had created a serious situation. Some livestock are feeding their horses rolled oats.

Mr. Vesey said he telephoned New York requesting two cargoes of oats, regardless of the country of origin—an unprecedented step for Bermuda, which in the past has bought all its feed exclusively from Canada.

## A Rude Awakening

Entire Undercarriage Of Trailer Stolen While Owner Slept Inside

An enterprising thief at Hamilton, Ont., stole the entire undercarriage—wheels, tires and axles—of a trailer without even waking the sleeping owner inside.

A sheepish trailer-occupant who reported the theft to Hamilton police, said he noticed the trailer rocking a bit, but slept on only to discover on awakening in the morning that his trailer had been jacked up carefully and stripped of its underlinings.

Swarms of locusts have been observed 1,000 miles at sea.

## You GIRLS WHO SUFFER DYSMENORRHEA

If you suffer monthly cramps, backache, dizziness or "irregularities," nervousness—due to functional monthly disturbances—try Lydia E. Pinkham's Vegetable Compound Tablets (with added iron). Made especially for women. They also help build up red blood. Made in Canada.

## Produced By The Troops

Wherever They Are Soldiers Try To Have Their Paper

The numerous B.E.F.'s of the present war are even more journalistic than those of the last one, though they have so far produced nothing quite in the same street as the famous "Wipers Times," says a London correspondent in the Ottawa Journal. In the London Press Club is displayed a copy of "The Midnight Sun," a weekly journal produced by British troops in Iceland, and edited by Captain Singleton Gates, a member of the club. The special interest of this particular issue is that, owing to a printers' strike, it had to be manufactured and was brought out under great difficulty. An Icelandic firm runs another newspaper for the troops, "The Daily Post," and the American troops have their own weekly, "The White Falcon." At first they ran two, one for the army and another for the marines, but their C-in-C decided one was enough, and they amalgamated. Besides these there are other weekly and monthly journals produced by the military units in Iceland. Even during their brief sojourn at Spitzbergen the Canadians printed their own journal. British men in Crete actually ran a paper under fire for four days. There were also the "Tobruk Times" and journals specially produced during the campaigning in Eritrea and Abyssinia.

## What We Are Saving

Figures Tell How No New Cars Help War Effort

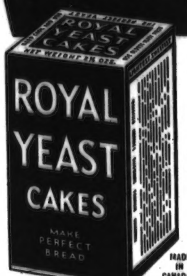

Negatives never won wars, says the Quebec Chronicle Telegraph, but here are a few things we are not doing or need not do which will hurry the day when we can ring the bells of victory.

For every 24 autos we are not making, we save enough rubber and steel for a 27-ton tank; for each automobile we are not making, we save enough tin to coat 1,000 cans in which to pack food for the armed services; for every 700 automobiles we are not making, we save enough aluminum to make one fighter plane.

Are you still down in the mouth about having to take to foot, or horse?

In Australian slang a cossie is a swimming suit.

## Says Britain And Allies Have Superiority In Science And Engineering Foresight

What is this idea of German invincibility? I see from various announcements that "this belief has now been destroyed."

Destroyed? ... What began it, and who on earth believed it? In the last war Germany won most preliminary battles, except Cambrai—and were then well and soundly beaten.

I thought this war was largely a matter of science, production and engineering foresight? If this is true, it is for the German to worry, for they have accomplished very little in the world of invention, writes Prof. A. M. Low, vice-president of the Institute of Patentes, in the London Daily Sketch.

They are definitely most unoriginal. They improve, alter and manufacture the products of other people's brains—like their worthy allies, the Japanese.

When these inventions arrive back in England five years later, we say: "How ingenious are these German scientists!"

Ingenious, indeed! It may be very wrong of us to neglect invention—but the man who conceived Stephenson's Rocket is far greater than the draughtsman who so arranges detail and labor that replica can be made at half the price.

Great Britain and the U.S.A. have accounted for most of the inventions which have benefitted mankind. All electrical machinery, from railways to hair-driers, is the result of Faraday's genius. Vacuum cleaners, the vacuum tube, the Queen Bee, and the plastic, which give us half our household goods—are all British.

It was Sir John Dewar's research which showed Germany how they could corner a vacuum flask market. It was Sydney Gilchrist Thomas (not Tomerach) whose steel process was grabbed by Germans to build up their steel industry against us.

I have looked through many Patent Office records—and in very few major inventions do I find the Winkelbaums or Schweinertpotters, Jones, Brown, Robinson and Macsomething are far more prevalent.

As far as science and invention are concerned, we certainly have the goods. However welcome they are, we do not even need refugees to teach us to be original.

British students work and play in useful ways. Our "culture" is not founded on an idiotic system of duelling, when men cut their faces with razors to show their courage.

Who says invincibility. Even the snobish few who must go to "Bad Hoffer" instead of Bognor as a remedy for over-eating have discovered that the English language is no

bar to medical knowledge, and that mystery need not always be part of the cure. Many thousands owe their lives to insulin—to give a popular example; but Dr. Banting is not a German.

Take artificial silk, canning or margarine (if you can get it!)—these are not German. Nor are streamlining, pneumatic tires, photo-electric cells, radio, the telephone or electric light.

The German Patent Office reeks of copies and "improvements." It is too true that we have only just awakened to the lack of support which industry has given to inventors, who are, literally the backbone of all decent prosperity.

In war—the torpedo, the airplane submarine, cordite, tanks, and a host of flying gadgets are ours or our own allies' "children." So was the acoustic mine.

Talkies and the mechanical harvester were not German. Nor were the spinning and other textile inventions which helped Japan to hit Lancashire below the belt.

Why... Great Britain held all the motor racing records while until the German Government backed up their factories while our racing men worked at their own expense.

The war will be won by invention and science. The Germans are good, but we are incomparably better. Stainless steel was ours; even the paper on which this is printed results from British invention.

It is quite true that Germany can always produce mouse-traps cheaper than in England; I wonder how much their workmen are paid in useful money?

For long there has been some childish fetish, fostered for reasons of self interest, that German universities are superb in every way.

This is nonsense. They are thorough. They often encourage a type of research which is creeping in to our own country—research which is no more than the endless multiplication of little-wanted, so-called facts or a patent form of memory-training which no more indicates intellect than the work of a performing seal.

Germany has produced some very great men. But they have had no Darwin, Faraday, Arkwright or Newton. Their machine tools are excellent—but they did not invent them.

Our enemies did not invent direction-finding by radio or the Kelvin Tide Predictor. We still have the best of invention, science or engineering—and, if we use it to the full, there is no nation in the world that can do it better than we.

German invincibility, most certainly not.

### Will Preserve Records

**Records And Data Of The Jack Miner Bird Sanctuary Being Compiled**

For 35 years the press of the world has given Jack Miner and his activities considerable space. Not only has the press featured Jack Miner's life work and its value to humanity, but for years he wrote articles for magazines and newspapers. His lectures were featured in all leading newspapers. His books were reviewed in every outstanding periodical. All these newspaper clippings, which in themselves are a history or biography of Jack Miner's career, have been saved by his eldest son, Max. Mr. Miner is in such space in the press that has rated Jack Miner as Canada's best known citizen. At the present time all these clippings are being mounted on mounting paper to be preserved for future generations, being complete data as to Jack Miner's work in natural history. Jack Miner at some time hopes to have a small museum at his bird sanctuary to safeguard and care for such valuable data as well as for his bird banding records.

### Watch-Fine Mechanism

The Foreign Commerce Weekly says the powerful motors of massive tanks and light military reconnaissance trucks owe their watch-die but sturdy operating mechanisms to the action of diamond-cut on finished pistons, connecting rods and main bearings.

### Receives Lost Medals

When Lt.-Col. Samuel Smith's home in Bristol was bombed a year ago he lost these medals: won in the First Great War, including the Mons Star. Recently, tarnished but otherwise intact, they were returned to him by a demolition squad.

Great Britain has offered to buy all of Egypt's fax crop.

### Speedy Repair Jobs

**Efficient Mechanics Go Into Battle With Nazis Tank Crews**

United States military observers in Libya, reporting on the latest German innovations and operations in the desert warfare, are impressed particularly with the efficiency of their tank crew's repair units.

High-speed "first aid" detachments accompany the German tank formations into the thick of the fighting, according to these reports, and the fact that Field Marshal Erwin Rommel was able to give battle day after day—despite an enormous number of tanks disabled temporarily—was credited chiefly to his mobile service stations.

"Time and again," said one British source, "the British overestimated the enemy losses, and Rommel's surprise tactics were due largely to his repair men."

### Right The First Time

"On the day on which my wedding occurred—"

"You'll pardon the correction, but affairs such as marriages, receptions, dinners and things of that sort 'take place' and it is only calamities that 'occur.' You see the distinction?"

"Yes, I see. As I was saying, the day on which my wedding occurred—"

### French Prisons Filled

French prisons are so crammed that there is no more room, Justice Minister Joseph Barthélemy told the newspaper, *Paris-Sol*. Barthélemy said efforts to repress "black market" operations are largely responsible.

Each season has its pests, but it's hard to beat the winter variety of people who stand in open doorways to make prolonged farewells. 2452

Household Arts by Alice Brooks

Handwork That Will Be Your Pride

### PATTERN 7181

This embroidered picture of the Sacred Heart is in easiest stitchery and costs little to embroider. Pattern 7181 contains a transfer pattern of a picture 10 1/2 x 14 inches, illustrations of stitches; materials needed; color chart. To obtain this pattern send 20 cents in stamps (cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermott Avenue E., Winnipeg, Man.

There is no Alice Brooks pattern book published.

### Opinion Of Lord Halifax

**Hitler's Greatest Crime Was Debasing Noblest Qualities Of Youth**

Speaking before the Church Club Lord Halifax made the penetrating remark that "one of the deepest crimes that Hitler has committed" has been to "debasing the noblest qualities of youth—enthusiasm, self-sacrifice, devotion—to the low service of material ends." For obviously, without the wholesale corruption of German youth through the inculcation

of a false religion of power, Hitlerism could not have become the appalling scourge that it has revealed itself to be. Hitler succeeded in what would have seemed, at first glance, to be an impossible task; he erased from the minds of a whole generation every vestige of Christian feeling or even of purely humane instinct, and put in its place a blind and fanatical worship of his own person.

To those who have been thus indoctrinated there is no crime but disobedience to Hitler's will. Conscience civilized man's ethical guide, has been cast out.

As the Ambassador said, one of the most pressing problems which the world will face after this war is the education of Germany. There never can be a durable peace so long as 80,000,000 people in the heart of Europe are ready to abandon their God and their human dignity and follow whatever inspired fiend may promise them power.

The Christianization of Germany will face after this war is the education of Germany. There never can be a durable peace so long as 80,000,000 people in the heart of Europe are ready to abandon their God and their human dignity and follow whatever inspired fiend may promise them power.

The Christianization of Germany will face after this war is the education of Germany. There never can be a durable peace so long as 80,000,000 people in the heart of Europe are ready to abandon their God and their human dignity and follow whatever inspired fiend may promise them power.

The Christianization of Germany will face after this war is the education of Germany. There never can be a durable peace so long as 80,000,000 people in the heart of Europe are ready to abandon their God and their human dignity and follow whatever inspired fiend may promise them power.

### For Prisoners Of War

Oxford University has decided, as an experiment, to conduct examinations for British prisoners of war in enemy countries.

Capt. Thomas Athol Joyce, former president of the Royal Anthropological Society and one of Britain's foremost archaeologists, died at 63.

### Now Standard Time

**Not Necessary To Refer To Daylight Saving Any More**

For the sake of avoiding confusion, everyone should follow official advice and cease referring to "daylight saving time" now that the clocks have been set ahead. The fact that the change was general removes the necessity for differentiating. To all intents and purposes, the new time became standard time for Canada and the United States.

The confusion has existed because there was no general adherence to any system. Some cities were on daylight time and others on standard. Thus it was necessary to stipulate which of the two was meant in giving the hour of the day. There is now no necessity for that, and the object to be aimed at is to forget, so far as is possible, that any change has been made.—Windsor Star.

### Were Mostly British

**But Indian And Australian Regiments Fought In Malaya**

Here are the British regiments that fought in Malaya and Singapore: The Buffs, the Lancashire, Argyll Sutherlanders, Gordon Highlanders, the Manchester Regiment, Malay Regiment, Sarawak Rangers, Royal Marines, Loyal Regiment or North Lancashires and Brigade of Guards.

Indian regiments engaged in the action included the Punjab motorized unit, the Hyderabad Regiment, and four units of the Frontier force. Individual Australian units in Malaya have not been disclosed.

### Reindeer As Pack Animals

A Finnish war report claimed Russian ski patrols operating on the frozen far northern front were using reindeer as pack animals to carry food and ammunition. The Finns said one such patrol was driven back and eight supply-laden reindeer were captured.

### TANK PRODUCTION AT C.P.R. ANGUS SHOPS

—C.P.R. Photo.

Just a matter of routine for the two menial mechanics, but their duties arouse special comment from Lt.-Gen. A. G. L. McNaughton, commander of the Canadian Corps, who made a detailed inspection tour of tank production facilities at the Canadian Pacific Railway's Angus shops, Montreal. General McNaughton witnessed the construction of medium weight "Valentine" tanks from their smallest parts to the finished product.

Included in the above group are (left to right): H. B. Bowen, chief of motive power and rolling stock, C.P.R.; Brig.-Gen. E. de B. Panet, Officer Commanding, M.D. 4; Gen. McNaughton; J. H. Berry, director general of automobile and tank production; Lt.-Gen. Kenneth Stuart, chief of the Canadian General Staff; D. C. Coleman, vice-president, C.P.R.

## Protection Of Grain And Cereal Products For Britain Is One Phase Of War Effort

It is impossible to assess with any accuracy the annual loss to Canada caused by insect infestation of stored products alone, but it must amount to many millions of dollars, state officers of the Plant Protection Division, Dominion Department of Agriculture. In war time, the prevention of waste of food is paramount, although it represents but an unspectacular phase of Canada's far-reaching war effort. The time has not yet come for the full story of that great effort to be written, but meantime, it is possible to lift the curtain on a corner of the battle for the prevention of waste as represented by the incessant fight waged against insects infesting and destroying stores of grain and flour in winter storage boats and in sea-going ships.

This work is carried out by the inspectors of the Plant Protection Division, Dominion Department of Agriculture, with the assistance of the Division of Entomology as advisor on the most effective means of insect control. The work of inspection is divided into two parts—the examination of all boats loading grain and flour for Overseas, and the examination of boats loading grain at the head of the Great Lakes for winter storage. The examination includes not only the boats but the cargoes, warehouses, elevators and docks. Through stress of war, and also on account of the nature of the varied cargoes carried, such as dried fruit, nuts, rice, from warm climates, the boats afford special facilities for insect infestation, and form a menace not only to the cargo itself but to all stored products.

A case in point was the arrival in Montreal in July, 1941, of a ship from India with a consignment of 92,000 bags of nuts among its general cargo. So heavily infested were the nuts with a large assortment of various stored products insects, that when the cargo was unloaded the docks and warehouses became infested and the insects spread to other stored products in the vicinity. Hence the necessity for unceasing vigilance.

Since the outbreak of war until December 31, 1941, the inspectors of the Plant Protection Division have examined 1,192 boats loaded with grain and flour at seaboard ports for Overseas, together with their cargoes of 212,813,412 bushels of grain and 798,502 tons of flour, with a total value of \$213,682,233. In addition, 303 grain boats loaded at Fort William for winter storage in the Great Lakes were inspected, along with the cargoes of 58,145,882 bushels of grain and 46,825 tons of flour, with a total value of \$42,289,118. Four hundred and ninety-six of the sea-going boats and 214 of the winter storage boats required cleaning before loading.

The meaning of the word "inspection" as used in ordinary language is apt to be undervalued when applied to inspection carried out by the Plant Protection Division, for the inspection of one boat alone is no sine-cure and entails a good deal of careful work. Armed with a flashlight, the inspector examines all cargo space 'tween decks and lower holds,

paying particular attention to areas around pillars, cracks in floors, sections of walls with filling pipes, areas surrounding conveyor parts, and in the vicinity of gangways. He looks behind and beneath anything in the shape of permanent damage, carefully scrutinizing straw mats where they are used. He pays particular attention to upright stanchions, collars for bins, shelves, grain hatches, huge boards which have not been lifted up with oakum, and any other spot that may have been overlooked in the regular cleaning of the cargo space. He prys behind sheathing used for the prevention of condensation of moisture—a favouring hiding place for insects—removing the sheathing material in his search.

The chief insects found in stored products are those which feed upon or damage the material, but there are others which do no damage and do not feed on the product but prey upon the other insects. However, their numbers are so small that they cannot keep the destructive insects in check. Apart from the actual damage done to the product, there is another aspect that must be considered in assessing loss from insects. There is the actual damage, of course, but there is also the loss of goodwill or prestige and of business where infested goods are supplied, even where it could be proved that the commodity could not be damaged by the pests that had inadvertently gained access to the goods during transport or storage.

So that between the winter storage boats on the Great Lakes and the ocean going cargo steamers, the lot of the inspector, like that of the proverbial policeman, is not an easy one but calls for the utmost vigilance. And the inspection of boats is only one phase of the work. There are a hundred and more things, such as the inspection of imported and domestic seeds and the examination of all premises where they are to be stored.

This is a bit of war work, about which little is known, but is among the most effective and important. It insures that grain and flour leaving Canada are free from insect infestation, that they are safeguarded from attack by insects while in transit, and are in sound and healthy condition when placed in storage, where they may remain for a long time. Thus serious losses are avoided that were common among such commodities during the last great war, when such work, as now being done by the Plant Protection Division was not being carried out.

### Receives Letter

**Manly F. Miner, Son Of Jack Miner, Receives A Hand-written Letter From Lord Bennett**

In a letter from Lord Bennett, former President of Canada to Manly Miner, he said: "I am working in London every day giving my services to help bring the war to a victorious conclusion." In ending his letter, he stated, "The Axis only represent 20 per cent. of the world's population while the Allies represent 80 per cent." Surely, 80 per cent. of this world's population cannot rule the other 20 per cent. The letter was written on January 11th and reached Kingsville on February 1st.

### Getting Plenty Of Food

Germany Has Been Receiving Large Shipments Through French Ports. Lloyd's underwriters published figures indicating that Germany is obtaining large quantities of foodstuffs and other products through French Mediterranean ports in spite of the British blockade.

In making a comparison between the first eight months of 1938 and the same period in 1941, Lloyd's figures showed increases in several important categories, including:

Fruits and vegetables, up from 180,000 to 200,000 tons; coffee, 18,000 to 30,000; cereals, 175,000 to 260,000, and wines, 80,000 to 240,000 tons.

### Had Themselves To Blame

A long queue waited outside the shop. On the door was a notice: "Opening at 10 a.m."

They waited patiently—but there were mutterings of indignation as a little old man tried to insert himself at the head of the queue. He was told to get to the back of the line.

He tried again lower down, with the same result.

"All right, then," he said. "I shan't open the shop"—and walked away.

The color red is the symbol of passion, power and riches.

IRMA

ALBERTA

**LOCALS**

The regular W.A. monthly meeting will be held at the home of Mrs. Berreth on Tuesday, April 24, at 2:30 p.m. All visitors are cordially invited.

Don't forget the tea and apron sale at the home of Mrs. Horn on Wednesday April 22nd in aid of the Victory Volunteer Workers. Watch the stores for posters.

Ralph Erickson arrived home last week from the Olds agricultural college where he completed the two-in-one course offered by the department of agriculture.

Mr. and Mrs. B. H. Hadlow and son of Edmonton at present are visiting Mrs. Hadlow's father, Mr. A. H. Locke, and others.

Mr. E. Wells of Edmonton has been secured as principal of the Irma public school, replacing Mr. DeTro who has enlisted.

Councillor A. C. Archibald, division 7, Wainwright M.D., is calling a meeting of the ratepayers of the Glenholm and Strawberry Plains for Monday evening, April 20th, at 8 o'clock to be held in the Glenholm school.

Mrs. A. E. Peterson is in Chauvin this week helping to nurse her son, Jack, who is suffering from an attack of rheumatism.

The regular meeting of the Alma Mater and Roseberry Ladies' Aid will be held Thursday afternoon, April 23rd, at the home of Mrs. J. C. McLean. Mrs. Edwin Elliott will lead the devotional period and assisting the hostesses will be Mrs. A. A. Fisher and Mrs. MacMillan. Neighbors and friends are always welcome.

Mrs. Lester Mikkelsen has just received word from Lester who is somewhere in England that he has received 1,000 cigarettes from the Irma Victory Cigarette Club and wished her to convey his most grateful thanks and appreciation to anyone and all who were responsible for this most acceptable gift reaching him. Just now words cannot express how much they mean to the boys over there.

The season of whist drives for the Irma L.O.B.A. was closed last Saturday evening with a very good attendance, 10 tables taking part. The prizes for the evening were won by Mrs. Carl Larson, Mr. H. Halvorsen, Miss A. Knudsen and Mr. Enger. Then the two grand prizes for the highest total score for the five evenings were, ladies, Mrs. C. Glover, and gents, Mr. R. Herbert. The competition was quite keen for these grand prizes, so honorable mention to those who lost by only a few points were Mrs. Herbert, Mrs. Black and Mrs. C. Archibald, while in the men's close running were Mr. R. Strome, and Mr. C. Archibald. Lunch was served and following this Mrs. I. Knudsen, as chairman, thanked all those who helped in a way to carry out this venture. In reply Mr. Ott, on behalf of all the friends who had attended, moved a vote of thanks to the lodge for providing so many very enjoyable evenings during the winter months.

During the last regular meeting of the Irma L.O.B.A. it was felt that there had been some unintentional omissions from the thanks expressed in the Irma Times last week. In regard to the Orange Lodge Red Cross dance, a hearty vote of thanks was moved to all the places of business who so generously donated prizes for the whist drive, and if we have overlooked anyone, we would like to say, again, sincere thanks.

**IN MEMORIAM**

In loving memory of Mrs. F. C. Lukens who passed away April 18, 1940.

O how oft she comes before us, Her dear face so sweet and true, Resting now in peace with Jesus, Loving hearts still long for you. Ever remembered by family and friends.

**IN MEMORIAM**

In loving memory of our mother and wife, Annie Graham Maguire, who passed away April 19, 1938.

It is sweet to breathe thy name; In life we loved you dearly, In death we do the same. Ever remembered by Wes, Lila, Mark, Bob and Ben.

Scratches on furniture may be concealed by rubbing with good furniture polish, with lemon oil, or with linseed oil. Scratches on mahogany may be retouched with a little stain of the same color.

**BOARD OF TRADE MEETING**

At a well attended Board of Trade meeting in Irma last Tuesday evening it was arranged for a public meeting to be held in Irma on Wednesday evening, April 22, at 8 o'clock, of all farmers and others interested in starting a cheese factory. Mr. McCallum, provincial dairy commissioner, of Edmonton, will address the meeting. Everybody is welcome.

Also at this meeting steps were taken to organize for the campaign in connection with the plebiscite vote on April 27. All voters will be urged to get out and vote, that is very important. The meeting went on record as being unanimously in favor of an affirmative vote in view of the critical situation facing our nation at the present time.

We all know something of what happened in other countries who were unprepared when the brutal invaders arrived. It is up to us to back up the government in an all out war effort now, not after the invader has gained a foot-hold in our country.

**40 M. P. H. LIMIT ORDERED MAY 1st FOR TRAFFIC**

Ottawa, April 14—Starting May 1st, the maximum speed limit anywhere in Canada will be 40 miles an hour under a new dominion order-in-council which provides stiff penalties for infractions.

The order, passed Friday, and to be signed Saturday by Chief Justice Sir Lyman Duff, deputy to the governor general, applies in all provinces which have not their own statutes limiting motoring speed to the 40-mile peak. It was passed as a step in the government's campaign to curtail non-essential use of gasoline and rubber during the war.

**Dominion Wide Red Cross Appeal For Nine Million Dollars**

An appeal for \$9,000,000 in voluntary contributions to the work of the Red Cross Society will be launched throughout Canada on May 11 and through the succeeding two weeks. This was announced in a joint statement by Jackson Dodds, chairman of the central council, and Mr. Justice P. H. Gordon, chairman of the national executive of the Canadian Red Cross Society.

"The Canadian Red Cross Society needs urgently a minimum of \$9,000,000 in order to carry on its work for the current twelve months in the mitigation of human suffering," the statement declared, continuing, "This is the first appeal since October, 1940, to the voluntary generosity of the Canadian people."

"The government of Canada recently arranged to supply the funds needed by various war service organizations, but the Canadian Red Cross was necessarily excluded from that arrangement. The reason for this is that the Red Cross Society is international, its position rests upon the Conventions of Geneva ratified by Act of Parliament. These require the Red Cross Society to be supported by voluntary subscription, and it is only by maintaining such support that the Canadian Red Cross Society can command the rights, privileges and immunities granted under international law. No belligerent government may finance the Canadian Red Cross Society; to do so would be to destroy the international status of the Society and even wipe out its immunity under fire."

**Let Us Get the Vote Out**

It may be taken for granted that the majority of Western Farmers intend to vote "yes" in the Plebiscite on April 27th. They are determined to make the National War Effort fully effective; they realize that voting is a National duty.

But the response of the West will be fully satisfactory only if every possible vote is polled. Get your own vote in and see that every qualified member of your Household also votes. Remind your friends of the vote and help neighbors get to the polls. Join in your Community Organization to get out the vote.

Then the voice of the West will be strongly heard as part of the National voice.

**UNITED GRAIN GROWERS LTD.****CLEANING WITH COLORS —**

Now that the time has actually come, and we are faced with the problem of housecleaning, decorating and general renovation, we naturally think of color and color schemes.
